

CEMOL ORAL

POWDER

For Veterinary Use Only

COMPOSITION:

Cemol powder

Each 100gm contains:

Paracetamol.....20g

Vitamin C.....5g

Potassium carbonate..... 12.5g

Sodium Bicarbonate..... 12.5g

Vitamin E.....12.5g

INDICATIONS:

Cemol Powder is indicated in poultry for quick relief from fever, pain & inflammation. Stress caused by debeaking, vaccination, transportation, and extreme weather conditions. It is also indicated to promote the enhancement of immunity along with developing resistance to diseases.

PHARMACOLOGICAL PROPERTIES:

Paracetamol acts by selective COX-2 inhibition and reduces pain, fever, and inflammation from the bird body. Paracetamol has high oral bioavailability.

Vitamin C ameliorates heat stress-induced problems such as poor immunity, feed intake, weight gain, oxidative stress, rectal and body temperature in birds.

Potassium carbonate improved bird performance, bone strength, digestive phosphatase activity, and phosphorus digestibility under induced heat stress conditions.

Sodium bicarbonate improves the growth rate of birds kept at high temperatures. It has the positive effect of increasing water intake, and also reducing systemic

acidosis.

Vitamin E acts as an anti-oxidant. Vitamin E can reduce the negative effects of corticosterone induced by stress and increase performance of bird.

DOSAGE & ADMINISTRATION:

For oral administration:

1gm in 2 liters of drinking water for 5 days.

PRECAUTIONS:

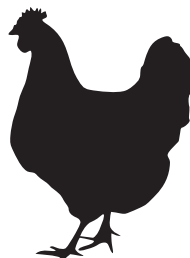

Protect from moisture.

Store between 15- 25°C in a cool & dry place.

Consult the veterinarian before use.

Keep out of the reach of children
