

ECTOEND POWDER

For Veterinary Use Only

COMPOSITION:

Each gm contains:
Trichlorphon98% w/w

INDICATIONS:

Ectoend powder is an organophosphorus and is used as an anthelmintic in the veterinary field for both endo and ectoparasites. The active ingredient in the Ectoend powder has very high tissue penetration when applied on the skin. Thus, Ectoend powder is a very useful product in killing and control of both ectoparasites and end parasites. The end parasites include *Astrophiles* (bot fly) larvae, *Haemonchus* spp, *Mecistocirrus*, *Cooperia* spp, *Trichostrongylus* spp, *Oesophagostomum* spp, Round worms of calves, *Oesturs bovis*, *Oesturs ovis* and *Schist soma* nasal. The ectoparasites include migrating and skin larvae of hypodermal *bovis*, hypodermal *lineatum* and dermatosis hominies, mange and depluming mites, lice, fleas, stephanofilariasis (hump sore), and dermatomycoses.

DOSAGE AND ADMINISTRATION:

Livestock:

For external use:

Biting and sucking lice, fleas, mange mites, sheep kids: 0.15% aqueous solution

Skin larvae of dermatosis fly: 1% aqueous solution

Migrating larvae and skin larvae of *Hypoderma bovis* and *lineatum*: 2% aqueous solution

For internal use:

Larvae of bot flies (gastro-phallus, hebronema larvae), ascarides in horses: 35mg/kg bodyweight

Roundworms of cattle and sheep: 50mg/kg bodyweight.

Stephanofilariasis wound healing: 60-70mg/kg

bodyweight.

Nematodes like *ccooperia*, *bunostomum*, *oestertagia*, *Trichostrongylus* and bot fly larvae: 75-80mg/kg bodyweight

Poultry:

For external use:

Dipping (1 to 2 minutes) spraying of building, walls, ceiling, nest, windows, doors and other sites where parasites and flies gather: 1.5gm Ectoend Powder per liter of water.

For internal use:

Add 10gm Ectoend powder per 100ml of drinking water and administer 0.3ml to 0.5ml per kg bodyweight.

PRECAUTIONS:

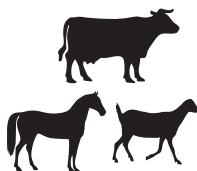

If a person comes in contact with the preparation, the person in question is advised immediately to carefully wash the skin in question with water and soap.

Consult the veterinarian before use.

Keep out of the reach of children.

Store between 15-25 degrees centigrade in a cool and dry place.
