

Ectosel-10 Solution

For Veterinary Use Only

COMPOSITION:

Each ml contains
Cypermethrin100mg

TARGET SPECIES

Cattle, Sheep, Goats, Poultry

INDICATIONS:

Ectosel-10 Solution is used for the treatment and control of ticks, fleas, mites, lice and flies. It can also be used for animal housing and facilities.

Ectosel-10 Solution also provides protection against parasitic fly larvae such as screw-worm, grubs and blowflies.

Cypermethrin high-cis is effective against ectoparasites that are resistant to organochlorines, organophosphates, carbamates and amidines.

Cattle: Boophilus (Rhipicephalus) ticks, multihost ticks and flies

Sheep: Scab mites and lice.

Goats: Lice and nuisance flies.

Poultry: Mites and lice. It can be used in the poultry premises to help in controlling these pests.
