

# Noroxsel

## Solution

For Veterinary Use Only

### COMPOSITION:

Each ml contains:  
Norfloxacin.....100mg

Consult the veterinarian before use.  
Shake well before use.

### INDICATIONS:

Noroxsel Solution containing Norfloxacin is indicated in Colibacillois, Infectious coryza, Fowl cholera, CRD, Respiratory tract infection (E. coli, Salmonella spp., Mycoplasma spp., Chlamydia spp. etc.) & gastrointestinal tract infection.

**Innovator's Specs.**

### MODE OF ACTION:

The bactericidal action of Norfloxacin results from inhibition of the enzymes topoisomerase II (DNA gyrase) and topoisomerase IV, which are required for bacterial DNA replication, transcription, repair, and recombination. Norfloxacin is a broad-spectrum antibiotic agent that is shown to be effective against various Gram-positive and Gram-negative bacterial species. The half-life of Norfloxacin is 3-4 hrs.

### DOSAGE AND ADMINISTRATION:

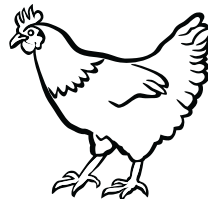

Noroxsel Solution should be administered mixed with drinking water. 1ml/2 liter drinking water for 3-5 days (12 mg/kg body weight). In salmonellosis treatment should be for 5-6 consecutive days Or as directed by physician.

### CONTRAINDICATIONS:

Do not use in case of known hypersensitivity to any ingredient of the product.  
Do not use in animals with a seriously impaired hepatic and/or renal function.  
Do not use in animals concurrently administer tetracycline, chloramphenicol, macrolides and lincosamide.
