

120x189mm

Sali-C

POWDER

For Veterinary Use Only

COMPOSITION:

Each gram contains

Acetylsalicylic Acid.....67mg

Vitamin C.....200mg

INDICATIONS:

Camel, Horse, Cattle, Sheep & Poultry:

Sali-C powder reduces stress during debeaking, vaccination, Blood testing, grading and hard weather. It increases immunity and reduces pain and inflammation.

PHARMACOLOGICAL PROPERTIES:

Acetylsalicylic Acid is readily absorbed from gastrointestinal tract and hydrolyzed into salicylic acid that inhibits the activity of cyclooxygenase and PGF₂ α . Salicylic acid also inhibits the synthesis of thromboxane, as a result platelet aggregation is inhibited and bleeding time prolongs. Salicylic acid has quick elimination and is mainly excreted as sodium salicylate in urine.

Vitamin C participates in the oxido-reductive processes and aids in tissue respiration. It reduces the permeability of membranes, thickens the capillaries and helps to restrict the exudative inflammatory process. Vitamin C stabilizes adrenaline and assist the synthesis of corticosteroid hormones. Vitamin C also improves the appetite, secretion activity of gastric tract and the animal growth.

DOSAGE AND ADMINISTRATION:

Administer the following dose orally via drinking water.

1 gram of Sali-C powder in 2 liters of drinking water.

CONTRAINDICATIONS:

Do not use in case of hypersensitivity to the active substance or in cases of gastrointestinal irritation and ulcers, chronic gastro-intestinal disorders, bronchospasm, liver function impairment or nephropathies.

ADVERSE EFFECTS:

Gastrointestinal irritation may occur especially in animals with pre-existing gastrointestinal disease. Such irritation may clinically be manifested by production of black manure due to blood loss in the gastrointestinal tract.

PRECAUTIONS:

Protect from moisture.

Store between 15-25°C in a cool and dry place.

Keep out of the reach of children.

Consult the veterinarian before use.

WITHDRAWAL TIME: Nil.
